

## Formula Racing Outboard Motoroil (Engine Oil)

### DESCRIPTION

Today's highly developed, high-powered, water-cooled, two-stroke engines require special outboard engine oils which can guarantee a stable lubrication film even at high running temperatures and high engine speeds.

Formula Racing Outboard Engine Oil is one such high-performance outboard engine oil which, owing to its high-molecular synthetic base oil components and specially developed additive package, exceeds the high-temperature requirements and provides for excellent engine cleanliness. This outboard engine oil, which has been tested for racing, is suitable for both mixture and separate lubrication systems.

### PROPERTIES

- residue-free and ash-free combustion
- prevents residues forming in the combustion chamber and exhaust ports
- prevents spontaneous ignition
- reliable prevention of corrosion from acidic gases, condensates and salt-laden air and water
- very good protection against wear even under high loads
- optimum lubrication due to outstanding lubricant-film stability
- can be used in mixture and separate lubrication systems
- biodegradable

#### Specifications / Approvals:

National Marine Manufacturers Association (NMMA) TC-W III

### TECHNICAL DATA

ASTM colour number	:	6.5	
Density at 15 °C	:	0.90	g/cm <sup>3</sup>
Viscosity at 40 °C	:	48	mm <sup>2</sup> /s
Viscosity at 100 °C	:	8.6	mm <sup>2</sup> /s
Biodegradability after 21 days	:	CEC L-33-T-82	> 80 %

### APPLICATION

For use in high-load two-stroke outboard engines with mixture or separate lubrication systems.

### INSTRUCTIONS

Use as normal for two-stroke engine oils for mixture and separate lubrication systems. Keep to the mixing ratio stipulated by the relevant engine manufacturer.

### AVAILABLE PACK SIZE

Formula Racing Outboard Engine Oil      1 l      Part no. 1233
